NOW, CONVERSATION

These questions are not an assignment. Just use them as a springboard to honest conversation. Feel free to ask additional questions as well.

1. When you were a child, who took care of you when you were sick? What kinds of things did they do to make you feel better?
2. Are you the kind of person who prefers to go to the doctor, or would you rather “tough it out”?
3. What are some ways your family culture influences the health and medical choices you make today?
